What is energy storage International Conference & Expo (Esie)?Martine Xu | conference@cnesa

Since its establishment in , the Energy Storage International Conference and Expo (ESIE) has successfully held 13 editions. It is the world's leading energy storage event and professional exhibition platform. It is hailed as the barometer of China's energy storage industry development.

When is energy storage International Conference & Expo ?The 13th Energy Storage International Conference and Expo is scheduled for April 10-12, , and will be held at Beijing New International Exhibition Center Phase II.

What is the energy storage exhibition & docking platform?It is one of the most influential industry exchange and docking platforms in the global energy storage field, and is known as a high-standard exhibition with high gold content and strong guidance in the energy storage industry. It is a weathervane for the development of China's energy storage industry.

How can the energy storage industry benefit from a 160,000 square meter exhibition?Using top-tier hardware to display the energy storage industry ecosystem, the integration of 160,000 square meters of exhibition space and facilities will provide enterprises with a multidimensional platform for showcasing technical solutions and brand value.

How will the energy storage industry evolve?More than a hundred leading figures in the energy storage industry will convene to deliberate on breaking pathways for the new energy storage industry and uncover routes towards quality industrial development. The global energy transition is accelerating towards carbon neutrality, driving rapid growth in the energy storage market.

What's happening at the 12th Energy Storage Summit?Standing at a critical moment as we plan for the upcoming 12th Summit, this event will delve deep into trending storage topics, conducting comprehensive and multidimensional discussions concerning policies, projects, and technologies of energy storage, for an insightful and industry-enriching forum. This edition of the event will cover an exhibition area of 160,000 square meters, with six major themed exhibition halls, and will concurrently feature a series of activities including the Opening ceremony, High-level dialogues, Academicians' forum, Thematic forums, Closed-door seminars, Application forum, International Energy Storage Innovation Competition (ESIC), Industry reports and Authoritative rankings release, and New product launches.
