What is energy storage International Conference & Expo (Esie)?Martine Xu | conference@cnesa
Since its establishment in , the Energy Storage International Conference and Expo (ESIE) has successfully held 13 editions. It is the world's leading energy storage event and professional exhibition platform. It is hailed as the barometer of China's energy storage industry development.

What is a storage Expo?With over 500 exhibitors across 50,000 square meters and an expected 150,000+ attendees, the expo serves as a high-impact platform for product launches, technical exchange, and cross-sector collaboration, aiming to accelerate energy transformation and commercial deployment of advanced storage solutions.

What is the energy storage exhibition & docking platform?It is one of the most influential industry exchange and docking platforms in the global energy storage field, and is known as a high-standard exhibition with high gold content and strong guidance in the energy storage industry. It is a weathervane for the development of China's energy storage industry.

When is Shanghai International Energy Storage Technology Expo ?Shanghai International Energy Storage Technology Expo will take place from October 9 to 12, at the Shanghai New International Expo Center, bringing together global leaders in energy storage, hydrogen energy, and renewable integration.

What is China International Energy Storage Conference?The China International Energy Storage Conference is a platform focusing on industrial energy storage manufacturing. Here we showcased new technologies and were very happy to see many customers coming to our booth to communicate. In the future, we will participate in the exhibition with better solutions.

How will the energy storage industry evolve?More than a hundred leading figures in the energy storage industry will convene to deliberate on breaking pathways for the new energy storage industry and uncover routes towards quality industrial development. The global energy transition is accelerating towards carbon neutrality, driving rapid growth in the energy storage market.
