

kaige energy storage

Kaige specialized in R& D and production of power battery for Mobile robots, AGV/AMR/electric forklift, telecom station, UPS backup, data center, solar energy storage systems, residential, commercial & industrial energy storage system, rural electrification, golf cart & Home energy storage system is an energy storage power product developed by KAGE specifically for households. This battery module is an intelligent unmanned energy storage power supply product that supports input from various power consumption methods such as PV/AC/DC. It is widely suitable for home

Kaige New Energy is specialized in R& D and production of power battery for AGV/AMR, telecommunication base station, UPS backup, solar energy storage and other battery systems in the field of sustainable energy.
