

PetroChina Energy Storage and Battery Initiatives for : Key Explore PetroChina's strategic shift towards clean energy with investments in battery swapping, hydrogen, and LNG. Discover their path to a sustainable future. China's first offshore gas storage facility officially put into operation!The gas storage has a designed effective storage capacity of 1.814 billion cubic meters and a working gas capacity of 1.052 billion cubic meters. The pilot test will be carried out in and PETROCHINA ENERGY STORAGE GROUP PLANT With a total investment of 6.97 billion yuan (\$1.03 billion), the Jiaohe pumped storage power plant, the first of the province's eight planned pumped storage plants during the 14th Five-Year Plan Exploration and Production The following projects were interconnected to the grid and commenced generating power: the first largescale centralized wind power project in Jilin Oilfield and the first million-kilowatt PetroChina: The first "gas station" without the smell PetroChina has accelerated the transformation of its gas stations since last year, but it has added charging swapping, and hydrogenation infrastructure to the original gas stations, which still smell a little oily. PetroChina Energy Storage System: Powering Sustainable PetroChina's systems aren't just storing solar power - they're enabling real-time grid balancing for offshore oil rigs. By smoothing power fluctuations, they've reduced generator Petrochina's First Comprehensive Demonstration Station of Super As the largest comprehensive energy enterprise in China, petrochina has actively promoted green and low-carbon development and laid out charging business in recent PetroChina put into operation the first optical storage and The service time of the Futian transportation hub optical storage and charging integrated supercharging station is 24 hours of open operation, and the charging vehicles are Photovoltaic + energy storage + fast charging + liquid-cooled According to reports, the station has a total installed capacity of KVA, equipped with robot automatic charging, wireless charging, V2G (CTOnews note: vehicle to the grid) charging PetroChina's First Large-Scale Hydrogen Project Now, PetroChina plans to build a large-scale green hydrogen project in Qinghai. Aiming at hydrogen energy, continuously extending the hydrogen energy industry chain, and expanding the strength Battery storage power station - a comprehensive This article provides a comprehensive guide on battery storage power station (also known as energy storage power stations). These facilities play a crucial role in modern power grids by storing electrical energy for later use. The PETROCHINA COMPANY LIMITED ANNUAL REPORTIMPORTANT NOTICE The Board of Directors (the "Board" or "Board of Directors") of PetroChina Company Limited (the "Company"), the Supervisory Committee and the Directors, Supervisors PetroChina PetroChina was established as a joint stock company with limited liabilities under the Company Law of the People's Republic of China (the PRC) on 5 November , as part of the restructuring of CNPC. In the restructuring, PetroChina: The first "gas station" without the smell A few days ago, the opening ceremony of PetroChina's first integrated "optical storage, charging, discharging, replacement, inspection and non-stop" intelligent super charging and battery comprehensive demonstration STATEMENT OF THE BOARD OF DIRECTORS Explanation of Information All information contained in this report has been taken from PetroChina's official documents and statistics as well

as performance reports and statistics PetroChina (0857HK): history, ownership, mission, PetroChina's midstream operations focus on the transportation and storage of oil and gas. The company operates an extensive pipeline network of over 100,000 kilometers. China Status of CO Capture, Utilization and Storage (CCUS) Capture, Utilization and Storage (CCUS) &quot; documents the progress of CCUS development in China through field data collection and reviewing existing literature. The report summarizes PETROCHINA COMPANY LIMITED SUSTAINABILITY PetroChina Company Limited (PetroChina, hereinafter also referred to as "the Company", "we" or "us") was established on 5 November, , upon the restructuring of China National Our Global Shareholders | About PetroChinaAs the international trading arm of PetroChina, PCI undertakes global commodities trading, development of overseas integrated oil and gas operation hubs comprising refining, storage, logistics and sales & Pipeline Restructuring Transactions Presentation The amounts and nature of future exploration, development and other capital expenditures; future prices and demand for crude oil, natural gas, refined products and chemical products; Elecod 5 sets 500kW energy storage converters in parallel Each Elecod's PCS storage cabinet in the project has a power output capacity of 500kW, and 5 sets PCS storage cabinets, a total capacity reaches 2500kW, are integrated through electrical PetroChina launches \$1.2 bln ethane-to-ethylene project in XinjiangPetroChina (601857.SS), Asia's largest oil and gas producer, said on Tuesday its Dushanzi Petrochemical Company has launched an 8.04 billion yuan (\$1.24 billion) ethane PetroChina???????????????? [ ] Proposed Amendments to the Articles of Association, The [ ] Resignation of the Chairman of the Pipeline Restructuring Transactions Presentation The amounts and nature of future exploration, development and other capital expenditures; future prices and demand for crude oil, natural gas, refined products and chemical products; Elecod 5 sets 500kW energy storage converters in Each Elecod's PCS storage cabinet in the project has a power output capacity of 500kW, and 5 sets PCS storage cabinets, a total capacity reaches 2500kW, are integrated through electrical connections and China National Petroleum CorporationEnvironment & Society We strive for harmonious relationships between operation and safety, energy and the environment, and corporate and community interests. PetroChina Jilin Petrochemical starts construction of 1.2 MtpaOn November 12, PetroChina Jilin Petrochemical commenced the construction of a 1.2 Mtpa ethylene plant, as part of its transformation and upgrading project. The transformation and Petrochina's First Comprehensive Demonstration Station of Super As petrochina's first green low-carbon comprehensive energy demonstration station integrating photovoltaic, energy storage, charging, discharge, power change, battery Tashkent Energy Storage Industrial Park Factory Operation Industrial Park Storage LLC offers clean, safe and easily accessible storage solutions for: Our storage units have solid concrete floors and come in four different sizes. We also offer a Optimal operation of energy storage system in photovoltaic-storage Therefore, an optimal operation method for the entire life cycle of the energy storage system of the photovoltaic-storage charging station based on intelligent reinforcement SUSTAINABILITY Post Code: 100007 REPORTAt PetroChina, we spared no efforts in

promoting innovation, which has been our business strategy and essential to our overall development. We strived to introduce technologies to PETROCHINA INTERNATIONAL CO.,LTDThe Company manages and organizes international trade of crude oil, refined products, petrochemicals, natural gas and other businesses. PetroChina International also involves in construction and management of overseas Business Strategy To develop a green PetroChina, we will strive to provide cleaner, more efficient and high-quality energy resources. In particular, we will accelerate our efforts to develop natural gas, which will Kunlun Energy Company LimitedAs a leading urban gas company in China, Kunlun Energy has established its presence across 31 provinces, municipalities, and autonomous regions, covering over 240 cities. The company PetroChina's First Large-Scale Hydrogen Project Now, PetroChina plans to build a large-scale green hydrogen project in Qinghai. Aiming at hydrogen energy, continuously extending the hydrogen energy industry chain, and expanding the strength
