

## yinghe technology energy storage battery equipment

Yinghe Technology conducts research, development, production, and sales of new energy automation equipment within the power battery industry. The company provides products that support the power battery production process, including automation solutions and We are building and perfecting an agile, localized global service system to assist global customers in creating green, smart, efficient, and safe digitalized factories. Shenzhen Yinghe Technology Co., Ltd. was established in and was listed on the Shenzhen Stock Exchange's Growth Enterprise Yinghe Technology's energy storage equipment is characterized by several key attributes: 1. Advanced technology integration, 2. High-performance efficiency, 3. Scalability and adaptability, 4. Commercial viability. Yinghe Technology effectively utilizes cutting-edge innovations, enabling the Ying He Technology, headquartered in Shenzhen, is a global leader in intelligent manufacturing for advanced lithium-ion and next-gen batteries. Its integrated production lines and digital MES optimize efficiency and quality across worldwide markets. Ying He Technology is a Shenzhen-based provider Yinghe Technology conducts research, development, production, and sales of new energy automation equipment within the power battery industry. The company provides products that support the power battery production process, including automation solutions and customized products. Yinghe Technology Recently, the patent for a "High-Speed Stacking Equipment" applied for by Shenzhen Yinghe Technology Co., Ltd. has been officially announced, and this innovative device may bring new transformations to battery production. According to data from the Tianyancha APP, the core of this patent lies in ? We're thrilled to announce that Yinghe Technology has successfully delivered a suite of core solid-state battery equipment--including Solid-State Wet-Coating Machines, Solid-State calendaring Machines, and Solid-State Electrolyte Transfer Equipment--to a top-tier battery manufacturemore Sound YhWins Yinghe Technology has delivered multiple lithium battery manufacturing equipment units. How about Yinghe Technology's energy storage Energy storage equipment from Yinghe Technology is renowned for its impressive performance in terms of both efficiency and reliability. The company has focused on enhancing the round-trip Ying He Technology Specializes in R& D, manufacturing, and integration of high-end battery production equipment, supporting lithium-ion (EVs, energy storage, consumer electronics), solid-state (wet and dry), sodium-ion, and dry Yinghe Technology Yinghe Technology conducts research, development, production, and sales of new energy automation equipment within the power battery industry. The company provides products that Yinghe Technology Releases Patent for High-Speed Stacking Recently, the patent for a "High-Speed Stacking Equipment" applied for by Shenzhen Yinghe Technology Co., Ltd. has been officially announced, and this innovative Yinghe Technology has successfully delivered a suite of core This innovative solution supports both wet and dry processes, offering core equipment such as wet-process coating and calendaring, electrolyte transfer, dry-process dispersion and fibrillation About Yinge TechnologyYinghe Technology was founded in and successfully went public in (Stock Code: 300457). It is one of the first companies in the lithium battery equipment industry to be listed on YINGHE
